

Please reject petition 04-160 authored by the NAB. By supporting this petition, the NAB will gain even more monopolistic powers over the air ways. XM radio offers me as a citizen of the United States a choice. I commute 50 miles a day to work and I cannot receive traditional over-the-air signals. XM radio has allowed me to listen to news, sports, music, and weather whereas I would not have had the opportunity to listen otherwise.
Sincerely,

Daniel Lopez
